DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or fairly suggest a photosensor system comprising: a photosensor array; an image reader; a sensitivity-adjusting reader which causes the subject image to be read by a specific region of the photosensor array to read the subject image at a plurality of different image reading sensitivities at a corresponding plurality of stages for the specific region of the photosensor array; optimal image reading sensitivity extraction means for extracting an optimal image reading sensitivity suitable for the image reading operation based on a comparison of predetermined measurement amounts which correspond to the plurality of different image reading sensitivities and which relate to an image pattern of the subject image corresponding to the specific region of the photosensor array and read by the sensitivity-adjusting reader.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
